The source of the deponent's information and the ground for their belief that the above counts were committed by the defendant are as follows:

1. An individual called 'Overlord', who was later recognized as a person by name of Sanzas Pierce ("Mr. Pierce"), gained access to 1 million dollars from an unknown bank. They have admitted to doing so in a video specified under paragraph 2. The connection between the name Sanzas Pierce and 'Overlord' is clear, as 'Overlord' is the registered occupation of Sanzas Pierce, as seen in exhibit A.

2. On 12th June 2022, at around 3:15 PM EST+8, Mr. Pierce first found the victim's address and then sent a video of possibly him (the person who was on the video had a mask), where he said that the victim should use a VPN next time and then proceeded to send the money to the victim without his authorization. This can be seen in exhibit B.
3. On 26th June 2022, at around 11:44 PM EST, Mr. Pierce contacted a postal employee about their recent criminal activity. They offered "thousands" for not giving their account to the Federal Bureau of Investigations, as seen in exhibit c. Their identity was verified through their IP addresses, which both showed the same location. Even if they had a VPN on, it would clearly be a homemade unique one, and thus the location would still be the same.
